A dedicated, cohesive staff of experienced and early careers teachers is focussed on the continuous collaborative development of high quality teaching and learning programs that meet the needs of all students. | In 2014, a comprehensive process was undertaken in the school to review current practices and collect evidence including student results, attendance and behaviour and survey data from staff, students and parents. This evidence was used at school meetings with our staff and community. This process included the review of strengths, opportunities and areas for development across the school and possible new initiatives. As a result three strategic directions were identified as a basis for shared commitment to future developments across the school. These are:  
  - Curriculum  
  - Community  
  - Leadership  

Each strategic direction provides the details of the purpose (why) people and processes (how) and products and practices (what) that are to be realised through the implementation of the plan. |
